Rāhu in one of the 12 houses. They houses appear in pairs, i.e., after the 6th house, the houses repeat again. The significant breakthrough years are respectively 27, 33, 36, 43, 48 and 54. We can notice that the year increases from 27 to 54. 54 is the double of 27 and indicates the 3rd cycle when Rāhu and Ketu shall return on their Janma positions.

Rāhu in Lagna/ 7th: 27th year

Rāhu in 2nd/ 8th house: 33rd year

Rāhu in 3rd/ 9th house: 36th year

Rāhu in 4th/ 10th house: 43rd year

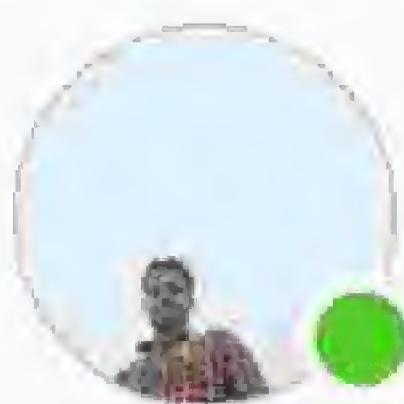

Rāhu in 5th/ 11th house: 48th year

Rāhu in 6th /12th house: 54th year

To conclude, there is nothing to dread about this yoga. If the yoga were that terrible, we would have found references to this yoga in significant classical texts, including Brhatparāśara Horāśāstra, Brhajjātaka, Phaladīpikā, Jātakapārijāta etc. This yoga has become part of a large money-making nexus among the practicing astrologer, or remedial astrologers. There are several yogas in a Kundalī which tell us about good and bad things in life, and this is merely one of them. To interpret the results of the yoga, one must understand the significations of Rāhu and Ketu. Both are mystical Grahas, and they give us a conduit to connect with the hidden. They are also the Kāraka for occult, which is our relationship with

Complicated post less related to astrology but Vedic cosmology...I know this that's why IAM positing but remember only some can get fruits of this not all and not to go deeper into this until your Brain is ready automatically or take guidance of Guru"thq...some people will call by a different name as it has many names in past but "Asvata" has vata means tree and apsa means different(in language of devinausara) so, rough translation is the reverse tree because the roots are above and fruits are below..."Every thing in the world is made up of Numbers with certain frequencies mostly these are Shiva, Vishnu and Brahma you may know about their function, they are classified as Solid,liquid and Gas...the world to live in a correct manner the three things gets collaborate or conjucts depends on time and forms a bi-product the tree is formed like that..." The space is the air you can take in and complete tree covered with bark is the solid and Fruits are liquid,this liquid again

gets into the air and new tree grows this is cycle of life of female and that's why females are advised to Do Pooja for trees and ghost or past life females if follows you trees are good(but careful with Banyan tree)...some people tries to get picture of it but its wrong it automatically appears in the brain or body when eyes are closed,no matter how much time it took it looks like "a triangle of yellowish brown colour upside down has small blue balls joined together with some spaces between them like a hand made ropes in 5 or 6 series and downside It has same blue balls but a surrounding layer slightly whitish blue 'bubble of water' but these have max spaces between them...this is secret of all if you saw this you will get the knowledge of jyotishya or the secrets will gets wisphered by your brain and body as a rule of Geometry(it actually said basic shapes like circle,triangle etc...)..." (its has some very complicated theories too,Don't ask me the PDF etc but this is true)...From Ganesha nadi

"Vishnusthana" Bindblowing article,read each and everyline...Almost all classical books revolve on Kendrasthanas and gives importance to it but none of the people now using like it the way profound by Rishis it is general way of power 4th=bandu/relatives 7th=wife 10th=your status, 1 is both Kendra and Kona (normal maths says it neither prime nor composite, but this tells us it's both) eg:when you are caught by king without doing wrong if 4th is supportive your bhandu will help you etc...but among this the 10th is most powerful that it can even suppress all houses even the Kona's 9th and Asc, but it has some impact on 12th more then on Labha...malefics owning the Kendra's and in Kendra's gives Rajayoga ,type has to be decided{general malefics here},particularly 10th as like sag asc sun in 10th the person becomes a king no matter his father's position...Great Bhrigu,Narada all other sages had identified it correct..."These are identified when problem comes that's why these are called by your name father"...From Ganeshanadi

Secret of names in Nadi astrology(Ganesha Nadi):

First and foremost there are some Siddhas who can known directly with sadana sometimes Yakshinis helps...some Nadi nadis follows different rules but mostly these are common, eventhough sometimes some nadis use varga charts also to know name...

1.vargas of alphabet are known first and placed placed in order...

2.name or relation is known by planets and placement...eg:sun and mercury in Gemini is Vishnu (but leave mrigasira it's combined with sakthi or Lakshmi)...

3.katapayadi sankya...number

And sometimes the first word of name is known luckily by some placements in chart...

By using all this you can guess the name...since I know Nadi, IAM sure but still studying this science, not good at 1st point...but this the correct one don't ask me secret,do research since no proper books are available..."if you're destinated to become Nadi reader, you will get it anyhow...if not leave it"...this is truth of name in Nadi astrology...Rudra

Past In a article I said Jupiter is getting Shaked (that is prana or air) but most of you didn't even remember...now the Modiji has said as like it... kuja "light" got exalted with a saturn "home becomes black background" these two makes kuja exalt and Saturn happy as it's in own house leaving air becomes stability...even the time is 9 min and 9-9:30 between both supports 9 kuja...I said Durga in past post...but I really wonder does Modiji is doing all this from Jyotishyacharya blessing or not but...this is correct it will help the Jupiter to build confidence and that's why we have good life from June leaving rest of world...Durga 😍

Nadi astrology "principles against" Garudra Purana:

No one in this modernized India done this research(of course the ancient ones had done this), Most of Nadies speaks that he/she will be born as a son or daughter to so and so because he has done this deed but Garuda purana mentions this person gets a body of dog or cat and mostly about animals because of deeds or karma or work but the Nadies never said like this(95% of nadies never predicted animal Births)... "I am still studying Ganesha Nadi, if I found the answer I will reply" mean while what you think as most genuine answer me but not a scientific one, let us see who comes to support "Sages and Gods" (eventhough Shiva Shambo said about animals)...it's your Raja

in the world of Shunya (reverse to parabharama), the next two chakras says that kill the bad and leave all,next one says there is no love,next says all people have scolded you so,you must in reverse,next says union is fake but when it reaches parabrahma these all gets reverse mostly the beautiful hakini(by both character&body,face, seminude) and kakini(by character)...firstly the round takes to right side of spinal cord and next level left side and forms a lightly thick skin,a snake appears as moving in a tight vessel,then this snake sets it's tongue out...this is why any apasara or any virgin when got near a rishi she falls into love and interested in sex automatically whatever the Indra/her intentionation be...but the yogi/chakric man(Vishnu Murti and shiva activated all these chakras to almost full level) must activate 1st ,4th and 6th from dakini,activation of anychakra is super easy as easy as laugh if lagna(or sun) +Jupiter retrograde in 1st seven Rashis (for female no exception)and this is if in karka or simha as easy as eye blinking,there are certain combinations who can do this and some must not do this...keep it as secret ,so I didn't showed you the way of activation,don't share, lucky ones may feel this,that's it ...it's your Raja...jai Ganesh nadi

Father and wife:

In reality and in Nadi astrology sense too it plays a major role...you can call anyone as your mother,children, grandfather (dada /tatayha) etc...but you cant call anyone as your dad or wife exception God. Soul must and will be one(union of spirits) & true life partner(both loves eachother ,but all cant find) will be one... 22-25 is age of the planets and there will be sense of these planetary karakatwas. If both likes eachother then even Saturn cant harm like lord Shiva loves smile of Lakshmi and that's why she gets easily then Lord parvathima...but this not possible for all,even adverse of this is found in lord Shiva and lord Sati birth chart...here lord says dont marry a person(s divorce may be) which had sun and venus badly affected in both the charts(you+wife)...(now secret I must not...). ..it's your Raja...jai Ganeshha Nadi...

Pradeep's post

For instance, suppose that birth took place in Ashwini nakshatra, counting from Krittika to Ashwini nakshatra, it comes to 26. Now dividing it by 9 yields 2 with remainder 8. Now once we start counting from Sun, 8th Dasha is of Ketu. So Dasha lord is Ketu at the time of birth, hence Ketu Maha Dasha was going on.

The number of years assigned to each planets are as noted below:

Sun - 6 years.

Moon. - 10 years.

Mars. - 7 years.

Rahu. - 18 years.

Jupiter - 16 years.

Saturn - 19 years

Mercury- 17 years.

Ketu. - 7 years.

Venus. - 20 years.

The total life expectancy is considered as 120 years.

The Dasha at the time of birth is determined from the nakshatra in which Moon is transiting at the time of birth. The degrees of Moon will indicate the Dasha lapsed at the time of birth.

Note: There are 9 planets and 27 Nakshatras. Each planet has Lordship of three nakshatras. It can be tabulated in the following way.

Reality of celebrities charts:

I am writing this article properly because it's a essential topic. Most of celebrities hide their charts by giving wrong date of birth ,some may give wrong times (as said by an old person to me) and the astrologers believes them and explains all the unwanted illogical stuff to illiterate researches and the this small buddies tries on their charts and family charts and becomes astrologers who has no use other then spreading smoke of burnt astrology.

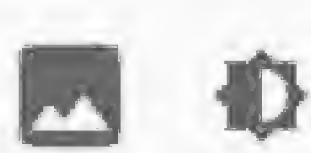

The Astrocharts website believes the chart correct only when it matches the person correctly but "Astrosage" believes it correct when it's from Kundali Sangrah: Bhojraj Diwedi is the author I think, this even gives olden kings , saints and Gods Horoscopes but mostly all are correct but some have + or- 30 days correction factor. 'The first chart which appears when clicked as an eg:"the birth chart of amithab Bachan" (also known as Big B) is surely from this website if you're searching from India,other countries too will have it until and unless it has no charts related to that celebrity'...

Mumbai, Maharashtra, India

Birthtime accuracy: excellent

vs

Astrosage...Name: Hrithik Roshan

Date of Birth: Dec 10, 1974

Time of Birth: 3:24:00

Place of Birth: Mumbai

Longitude: 72 E 50

Latitude: 18 N 58

Time Zone: 5.5

Information Source: Kundli Sangraha (Bhat)

AstroSage Rating: Accurate (A)

But I can boldly say the Astrocharts is correct regarding this chart and even some persons doubted the chart of Big B in Quora too but I can't see anyother chart as his poet father bio has a line which says about his birth time has "3-4 during third world war and a wrong date" as mentioned in wiki...but the Astrocharts says it's poor accuracy chart...The Hritik Roshan chart from Astrocharts is correct atleast date is correct I can say it...So,careful with celebrity charts...it's your Raja

Om ucchista Maha Ganapathy namaha

Prassana jyotisya

In Prassana jyotisha casting the Aruda Lagna is very important... there are six major methods (shad arudam)

1. Swarna arudam
- 2.udaya arudam
- 3.udaya lagna amsa arudam
- 4.Sastra arudam
5. Anga sparsta arudam
6. Chandra Rasi

At the time of casting the aruda lagna

1. If moon or Jupiter is aruda lagna then question is related to longevity.
2. If Saturn is posited in 7,8 or 12 , then its Chora prassanam (theft).
3. If Ketu is posited, then it has to b understood, the questioner itself has knowledge of astrology or is an astrologer..

Sri Rama the embodiment of 16 gunas, is Dharma himself. Even a rakshasa kula-sanjatha Maricha addressed him as "Ramo vighravaan Dharmaha."

The 16 gunas are: 1) Gunavan = good qualities, 2) Veeryavan = courageous, 3) Krutagnasya = one who remembers the help given to him by others, 4) Drudvratha = Having firm resolve, 5) Satyavratha = one who speaks and follows only the "Truth". 6) Charithra = having noble character, 7) Charithravan = Having good pedigree (Keerthi vamsam), 8) Vidvaan = knowledgeable, wise, 9) Sarvabutah hitavan = one who wishes the best for every living beings. 10) Samarthyavan = one is tactful and one who can achieve any given task, 11) Priya darshanaha = always adorable. 12) Athmavan = one who has control over his Athma, 13) Jitakrodhaha = one who keeps his anger in control, 14) Dhyuthiman = one who has natural brilliance, 15) Anasuyavaan = Never envies of others wealth or welfare, 16) Bibyati Devaaha = even the Gods tremble if he is provoked.

Vedas and Vedic astrology:
This is a long article but enjoy it...
When a teacher ask his student what you want to become in your life, he may say "I want to become a scientist in NASA" all the students and teachers claps for him & if another one says I want to study Vedas (and some hindu books) and become a scientist they will just laugh (some are exception, who knows the value of this science)... people doesn't know much about Vedic siddantas and jyotishya but talks about NASA all the time remember the Stephen Hawkings words "it's better to become a Vedic scholar then a modern scientist"... It's mentioned in some hindu scriptures and hindu teachings always say no science is greater then the three "jyotishya (understanding the reality of God), Aryurveda (sustainability) and yogic (seeing reality)", even in this Jyotishya is said to be "eyes of Vedas" and there is a saying in Vedas as "sarvendriyanam neynam pradanam" meaning among all other sensitive organs eyes are important, I

neynam pradanam" meaning among all other sensitive organs eyes are important, I think you got it...ok, it's time to say a secret (just forgotten) there is a "Narayana" name in hindu scriptures(I won't say except this, but not confuse with Vishnu always this is I can say) here If you saw the Sandhi formation Nara(man)+Ayana(6months) roughly as man for 6 months ,the God here sleeps for 6 months and gets up on "Vaikunta Akadashi" and moves to other side & sleeps, if you coincide this with Jyotishya the sun in Jan(entering makra rasi somedays later)will try to get power and continues till rainy season...It's mentioned in almost all hindu books as sun as father and moon as mother & sun,moon as eyes , so the jyotishya says more about father and mother..."using this you too could say to a spectacle person, if he said his right eye has defect more then left,his father always shouts at him or he shouts at his father(here father can be replaceble by a person like father) or he I'll treats him,so if you said do good to father it will become Jyotishya meaning"Showing reality"...it's your

om ucchista mahaganapathye namaha **SATURN – KETU CONJUNCTION, OBSTACLES IN CAREER AND REMEDIES**

Saturn rules the tenth house from the kalapurusha lagna, hence Saturn decides ones profession and plays a major role in shaping profession of the native.

Ketu is a sanyasi planet and it gives vairagaya, detachment and obstacles in one's life. Hence during dasa of kethu, such effects are pronounced, unless kethu is very beneficially placed.

In an individual horoscope if Saturn and ketu are placed together, then there will be problems in job or one will not show interest in job or there will be some obstacles related to profession.

The above problem will be felt when Saturn in transit meets kethu also. So let's see how this problem caused by kethu can be minimized.

Generally when such sat and ketu combination is present, it is better to take up the profession

it up as a secondary job along with the primary profession. For example if your primary job is stationary shop/book shop, then selling some pooja items or books related to religion or spirituality , occult knowledge , will minimize the negative impact of kethu on your business, since it is related to karakatwas of kethu.

Venus Mars Sexual Magnetism

Venus plays a very vital note in the life of each and every person. Venus is the main signifier of wife, passion, sex, love affection, attachment, attraction, pleasure etc., Acharya Mantreshwar has described in the chapter two of "Phaldeepka' about Venus.

Venus is the lord of 2nd and 7th signs. Venus is the Karaka of passion, attraction, art, physical and mental attraction, beauty, sensual and size of sensual organs etc. Venus is also responsible for immoral relationships.

Venus signifies music, poetry, art, beauty, grace, attraction, hypnotism, Indrajal, bed pleasure and all related with female nativities. Venus should be analysed properly.

Venus does play a very important role for all male nativities as regards their sex life, immoral behaviour, passion, adultery illegitimate relationships, loyalty or disloyalty towards wife,

Dalton proposed a theory of Indivisibility of Atom, during 1808. 1911, Rutherford proved that the atoms consist of one more particle, whom he named Proton because it was positively charged. During 1932, James Chadwick proved the presence of a Neutron in the atom. Because it had no charge, it was named as Neutron.

But, Bhagavata Purana (written around 3100 BCE) describes atom as Paramanu and each Anu (molecule) consisting of atleast two Paramanu. atom division in bhagavata purana
